

NEW Product

Omgea 3 for Dogs

- » Support your dog's optimal health and longevity
- » High levels of DHA to supercharge your dog's health
- » May help to relieve dry and itchy skin

Studies have shown that regular supplementation with omega 3 fatty acids helps manage healthy inflammation to better maintain the health of your dog's brain, heart, eyes, joints and skin.

Dog Watch Adoption Centre ★★★★★

5.0 RATING

"We see vast improvements to the dogs that are on the supplement and see many varying benefits. Most of the dogs benefit by their coats improving in shine and quality, their overall health improves."

Pam

The New Wave in Joint Support

Natural supplements work from the inside out, providing ingredients that are 100% pure and natural, so that they are safe to be taken daily for long term management of joints. Our joint health range helps support the body's ability to manage joint discomfort, providing essential building blocks through good nutrition to rebuild tissues for longer-lasting results.

Manufactured using only the highest-quality ingredients, synergistic formulations that are clinically proven to be effective for easing joint pain and discomfort, supporting and managing associated symptoms.

Discomfort can be debilitating but it doesn't have to be permanent. Partner our joint range with healthy living choices to get your life back on track.

Go Beyond the Basics

Natural Support for Healthy Joints

When it comes to supporting your joint health and mobility, you want a solution that delivers results.

Why Natural Supplements?

- » Back-to-back clinical studies on green lipped mussel extract have now confirmed its efficacy.
- » Research has shown that DHA and EPA, components of Omega-3 fatty acids, may inhibit the proteins that contribute to stiff joints, while replenishing the moisture in cartilage.
- » Glucosamine is an essential building block for joint health and plays a vital role in maintaining the overall health of cartilage, synovial fluid and connective tissue.

Omega 3 QH Ultra

- » Manage joint discomfort
- » Support joint mobility
- » Improve sleep quality
Agilinat iliurnis inequo interis crit, et vil tem auremus sulius

Along with multiple health benefits, Omega 3 QH Ultra helps to support the body's ability to manage inflammation and return the inflammation cycle to a healthy balanced state.

Highly Recommend It! ★★★★★ 5.0 RATING

"I love this product. I have shopped around for fish oils and the level of DHA in the QH Ultra is the best I have found. I recommend it to all my friends."

Adam

Green Lipped Mussel Powder

- » Improve mobility and discomfort
- » Maintain joint health and function for the long term
- » Good source of marine lipids and glucosaminoglycans

Green Lipped Mussel Powder contains a rich blend of naturally occurring nutrients for joint cushioning and lubrication. It also provides nutritional support for damaged cartilage.

Great Product ★★★★★ 5.0 RATING

"I was introduced by my primary doctor. I have joint discomfort and other conditions. Life would have been intolerable with this. I was using chondroitin but he put me onto Green Lipped Mussel Powder."

Marion

Not Just Joints

- » Comfort sore joints and muscles
- » Support joint recovery post-injury
- » Manage the cycle of cartilage destruction

Not Just Joints contains extra strength ingredients like glucosamine, chondroitin and MSM that work to support healthy cartilage growth, and providing targeted joint relief for long-lasting results.

Effective relief ★★★★★ 5.0 RATING

"My wife has been using Not Just Joints for several years. It has always been effective at providing her with relief, which has been concentrated in her hands. Whenever we run out of it, her joint problems come back."

Bruce
